

CAPTAINS & FIRST OFFICER TESTIMONIALS

What Captains Say About Crew Pacific's Recruitment Services

Yacht Owners, Captains and Crew;

10/1/2022

Crew Pacific's Training and Placement services are second to none in the Pacific and Southeast Asia. The honesty and integrity of their directors and staff are always a pleasure to work with to find an excellent crewmember.

Crew Pacific's unique trademark Elementary Super Yacht training courses are the most relative to the Super yacht industry giving the best technical training. More importantly the industry culture and real working conditions.

When I see a crew member who has completed a Crew Pacific Super Yacht Steward/ess or Deckhand course I know they will understand the logistics of working onboard a Super Yacht but not only enjoy yachting life. They will act professionally and already have a clear understanding of their chosen role.

It is industry pioneers like Joy Weston who have devolved and cultivated most of the excellent service crew not only in the South Pacific but internationally there are so many success stories.

Over many years many students who has passed Crew Pacific's Elementary Super Yacht courses have been extremely successful within in their super yacht's careers. *(Crew Pacific's courses are not just about attendance but must show Skills, punctuality, and etiquette to be successful).*

Many students that complete a Crew Pacific Elementary super yacht course will get the opportunity to stand on a bridge of a super yacht, with fellow crewmembers and may even get the chance to interview with a Captain for a job.

99% of these people that have had this opportunity have been employed.

Crew Pacific is renowned for "Training & Placing" their students into a job straight after completing a course.

I challenge any other RTO or training course anywhere to show those kinds of statistics.

Every crew member Crew Pacific has placed onboard we have had success with from Engineers, Deckhands, Stewardess. Especially the service staff even at a very "Green Level" they have hit the ground running and immediately integrated well with the other crew. Thus, the reason for using Crew Pacific's services for over 10 years

Crew Pacific develops long term career orientated crew and places them on the best yachts!

Sincerely

Captain/Fleet Manger

Marine rescues Captain

Hello Joy,

It is a great pleasure to write this for you 4/1/2022

How many years you have been using Crew Pacific's services for yacht crew

I have been using crew pacific since about 2002 when I joined up as a deckhand. Now using her to recruit crew for our 85m expedition yacht.

How you would rate Crew Pacific's services

Very fast and attentive. Great to deal with especially these days with so many new pop up crew agencies it's nice to have a experienced company to work with.

How I reference check and vet all the crew that submitted.

I can't vouch for her entire portfolio, but everyone we have ever hired from her have been spot on. Exactly as promised.

Respectfully,

Todd Leech
